Eliezer,

I just wanted to drop you a quick note to let you know how well the Navalocks are working. We now use them on all container shipments coming from the far east. Since using these locks, we have not had one instance where a container was breeched and theft occurred. Our cargo losses due to compromised containers is now zero. A big difference from the past.

In a time where companies are quick to complain about products or services, I thought it appropriate to praise those products that actually do work as promised!

Keep up the good work.

Yours truly,
